Education

California State University, Sacramento

Bachelor Mathematics

The Tech Academy

Software Developer Certificate

Projects

Seeds of Aether

Developer

- ▮ Designed and engineered playable character mods for the game “Rivals of Aether”.
- ▮ Achieved over 145,000 subscribers over 5 different characters with the highest being over 55,000.
- ▮ Maintained and patched character mods based on community feedback leading to 96% positive reviews and select characters being played in community tournaments.
- ▮ Led technical design for move sets and collaborated with artist, sound design and other Seeds of Aether engineers to release characters.
- ▮ Assisted others by answering questions and solving issues in online community forums.

Work

The Tech Academy

Online Instructor

- ▮ Graded and left feedback on student assignments.
- ▮ Mentored students remotely via directed feedback and screen sharing.
- ▮ Led a simulated two week scrum experience as product manager to immerse students in an agile software development experience
